

Dear Jim, /

4/17/74

Until I read the attachment to Joling's letter of 4/2, I thought he might be a good guy to turn to. He may be as a technical expert if one of his kind is needed in the Ray case. But when I read his "Uurriculum Vitae" I got seared. A guy who belongs to so much, is an expert in so many areas ~~it~~ (81, count them diary) and moves around so frequently hasn't had time to learn any fact and won't find or make it.

However, I believe it would be more than worthwhile to ask him for a sound tape of Francisco's memorable words on the King autopsy. I think any word Francisco has uttered on this we should have.
